# MARKET IS DULL,

Most of Net Changes in Prices of Stocks Are Ad-

NO FEATURES

Nothing in News of the Week to Stimulate Activities of Traders.

[Special to The Times-Dispatch.] New York, May 25.—To-day's stock market displayed the same general characteristics as that of Friday. It was a very dull market, but a strong one, and most of the net changes in prices were advances. None of them was of consequence or of particular interest, except the upward movement in the local traction shares, and gains in a few specialties, such as New York Air Brake, Texas Oil, Denver and Itlo Grande preferred and People's Gas. Attention was again directed to the local traction wheres, by the announcement of the new financial plan of the Interhorough Rapid Transit Company, and the report of progress on perfection of a \$100,000 financial plan for Brooklyn Rapid Transit. Apart from the customary weekly trade reports, and the traction financing, news of market interest related principally to the trend of railroad carnings. Southern Railway, for April, showed an increase of \$755,000 in gross and \$125,000 in net. For the same month Atchison, Topeka and Santa Fe reported a gain of \$279,000 in gross, and \$569,000 in net. Bank clearings for the week were 10 per cent. above those for the corresponding week last year. As had been expected, the weekly bank statement was favorable. It showed an increase of \$755,000 in surplus reserve and an increase of \$479,000 in gross, and \$569,000 in net. Bank clearings for the week were 10 per cent. above those for the corresponding week last year. As had been expected, the weekly bank statement was favorable. It showed an increase of \$7,000 in gross, and \$120,000 in net. Bank clearings for the week were 10 per cent. above those for the corresponding week last year. As had been expected, the weekly bank statement was favorable, and the covering by professional traders in the latter part of the week progressed. In the early part of the week groups and interest of \$1,000,000 in the other in the covering by professional traders in the latter part of the week brought the average of prices just about where it stood at the end of the previous week.

In bonds, business was a little bett New York, May 25 .- To-day's stock market displayed the same general

ratiroad securities were easily disposed of.

The American Ice Company practically completed arrangements for a new financing to the amount of about \$6,000,000. Important progress was almost made on the most important financial plan, now engaging the attention of bankers, that of the financing which will be necessary to enablithe Interborough Rapid Transit among the Brooklyn Rapid Transit Companie to build the new subways. It could not be said that the investment demand for bonds was particularly keen but money continued so pientitul that the institutional demand was well maintained.

Figures compiled by the Departmen

inces have again broken out in Eng and, and the London market las week was somewhat depressed on account of them. The London market has also suffered from overspeculation in Marconi and steamship sharet tention was given to crop reports Study of the daily weather map was more intense than perusal of any of the data customarily consulted be speculators, for it is widely believed that the prospect for the crops it now the most important market factor. The season is admittedly late planting of important crops, such a corn and cotton, having been delayed by the cold weather crops such a corn and cotton having been delayed by the cold weather crops such a corn and cotton having been delayed by the cold weather and rains of the spring, but in the past week conditions over practically the entirecountry have been much more favor able than in any other week of the spring. It seems to be reasonably as sured that the country will have record crop of hay, and that the fruit crop will be good. Winter wheat will be short, but from present indication compensation will be found in an in creased acreage of spring wheat an corn. Cotton planting has progressed acreage as the planters can put in. Witogether crop prospects wering an acreage as the planters can put in. Witogether crop prospects wering the progression of the week than at the beginning.

New York, May 25.—Money on ca nominal. Time loans steady; sixt days, 3@3 1-4 per cent; six month

days, 3@3 1-4 per cent; six months, 3 3-4 per cent.

Prime mercantile paper, 4 to 4 1-2 per cent. Sterling exchange easy; \$4.8450 for sixty days bills, and at \$4.8715 for demand. Commercial bills, \$4.83 3-4.

This Company

Considers it part of its business to serve the public in every reasonable and legitimate way, and endeavors through its advertisements to point them

We call attention this morning to our bond department, as we wish it generally known that we have, from time to time, good investments to offer, in the shape of well secured bonds yielding 5 per cent. to 6 per cent.

We have an issue of bonds now in denominations of \$1,000.00 each that net the investor 6 per cent. Some of them have been bought by several of the most conservative investors in Richmond, and we will be glad to send descriptive circular to any one inter-
